F1 Pro

Technical Specifications

F1 Pro - Camera

The F1 Pro is an all in one, HD, Infrared video recorder with on board intelligent and secure encrypted enabled software. The system is UK Home Office compliant.

This system has been developed for the professional to ensure secure critical video and audio capture. It's light-weight robust design and technical features make it the premiere body worn video solution on the market.

The F1 Pro can be mounted on a variety of positions including the shoulder lapel, chest or use in a vehicle amongst many others.
